

**Mathieu De Coster**

**Testing MARP**

# Test

This is the second slide. It's got:

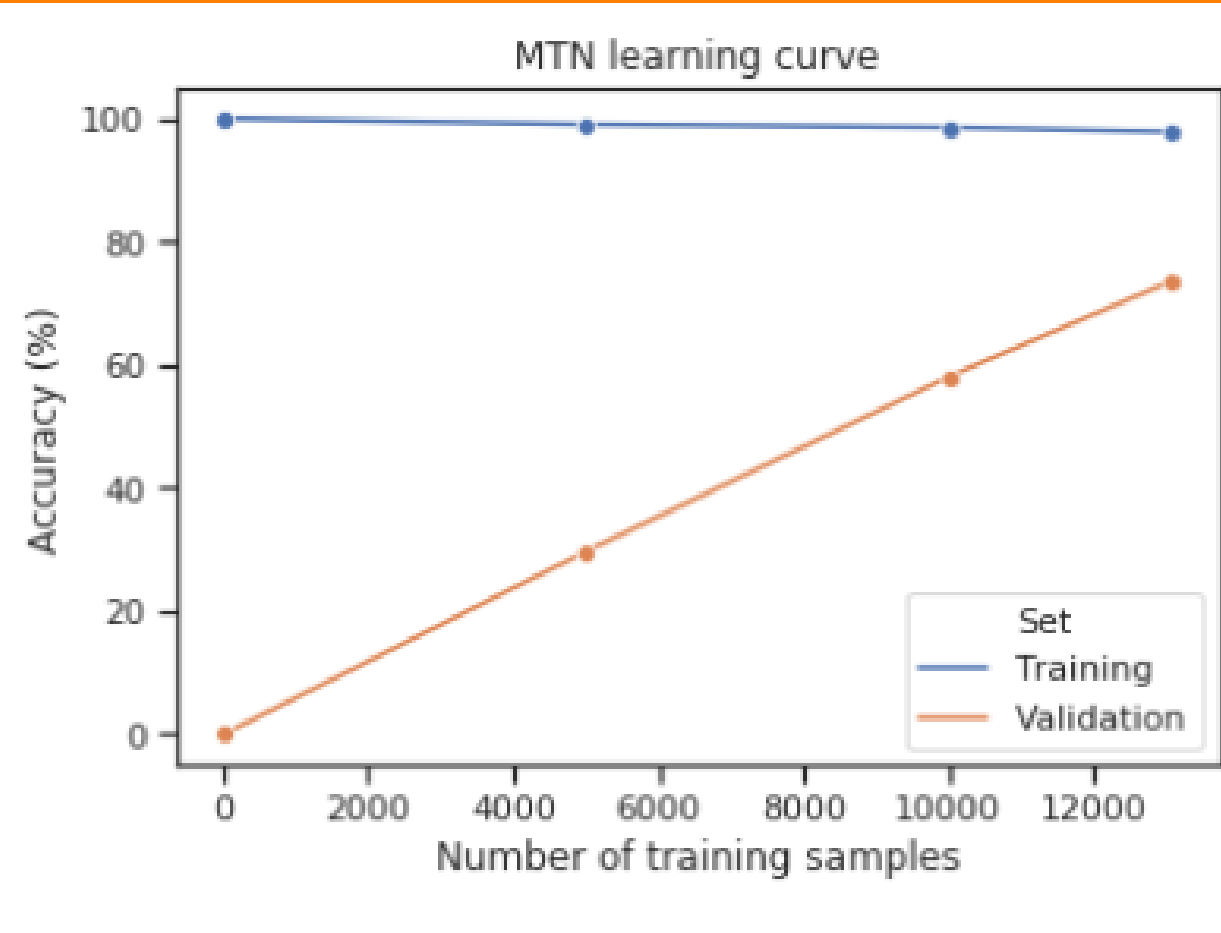

- Text
- Bullets
- Code

```
fn hello_world() -> String {  
    "Hello".to_string()  
}
```

# Images

Images are supported too. On the right we see a graph. Let's put it on an orange background.

*Because why not.*

# SVG
